

## DESCRIPTION

This product contains a special blend of bacteria strands, both aerobic and facultative, chosen for their ability to digest and liquefy organic waste quickly, efficiently and without odors. The continuous use of this product drastically reduces plumbing maintenance costs and reduces pump-out frequency, making it the ideal grease trap maintainer.

It utilizes the latest biological technology to keep grease traps and drain lines free from clogs and foul odors while resisting chlorine, disinfectants and high water temperatures.

This product not only eliminates greasy accumulations, but also helps eliminate obnoxious odors at the molecular level while a pleasant fragrance keeps traps and plumbing lines smelling fresh.

## DISPOSAL

Offer empty container for recycling. If recycling is not available, discard container in trash.

*For industrial and commercial use only.  
For additional information, see Safety Data Sheet.*

# TOTAL SOLUTIONS®

BACTERIAL/ENZYME DIGESTANTS

## BIO-FLOW™ ULTRA

### Highly Concentrated Grease Trap Maintenance System

- ALL NATURAL-SAFE TO USE
- REDUCES FREQUENCY OF GREASE TRAP PUMP-OUTS
- REDUCES ORGANIC WASTE AND CLOGS
- ELIMINATES ODORS
